Guide for Gauging Ring Size

How to use your guide:

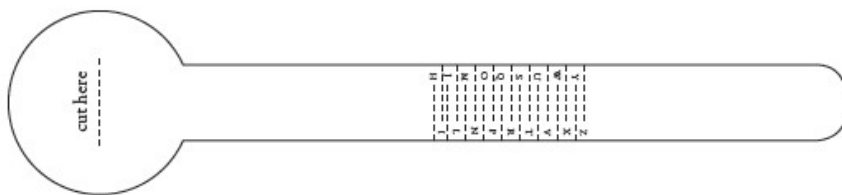

Take a ring that you already own and that fits correctly. Place it on the chart and match its inside diameter to the appropriate one on the chart.

You could also wrap a tape measure carefully around the fullest part of your ring finger and read off the measurement in millimeters. Then match the millimeters to the correct ring letter on the chart. OR you could carefully cut out the measure on the sheet and use it in the same way.

Now you know the size of ring you require you can enjoy looking at the fine selection of rings we have to offer at Bradley Hatch Jewellers.

We hope you enjoy your purchase for many years to come.
